BCS Logistics

As part of the industrial estate in Cilegon, we started our business as a provider of industrial manpower, steel and plastic packaging.

During 20 years of our business, we are involved in warehouse management, freight forwarding, industrial packaging and transportation. PT BCS has numerous advantages as follows : a strategic location, spacious lands, high quality human resources, integrated telecommunication network and reliable transportation fleet.

We are willing to have significant role as logistic service provider and to be reliable partner in logistic solutions.

Vision

To become a logistics company with high competitiveness, sustainable and global, supported by excellence community

Mission

- To provide total solution in logistics services.
- To give the best services that fast, accurate and high quality
- Ful fill customer satisfaction.

Quality Policy

- To implement quality management system
- To comply with laws & regulation that relevant to the business
- To conduct sustainable improvement of quality management system as work habit
- To develop human resources capability by training & learning

Orderly and Discipline

Orderly and discipline are the key that can hold and secure every step of success, creating space for everyone to evaluate processes and to build a strong basic for added-value creativity and innovation.

Hard working and sincerity

Hard working and sincerity are whole awareness of world and hereafter as a universe of life. Hard working in any efforts will optimize every potential. Sincerity will lead to the realization that every effort is worthy. Hard working with sincerity is the way to succeed.

Cooperative and Togetherness

Cooperative and togetherness lead to awareness of collective power and imperfections in every human being. Cooperation is an endless process, unification process from small to big and from weak to become strong. Togetherness allows acceptance of difference without eliminating the positive character of each other.

Professional and Productive

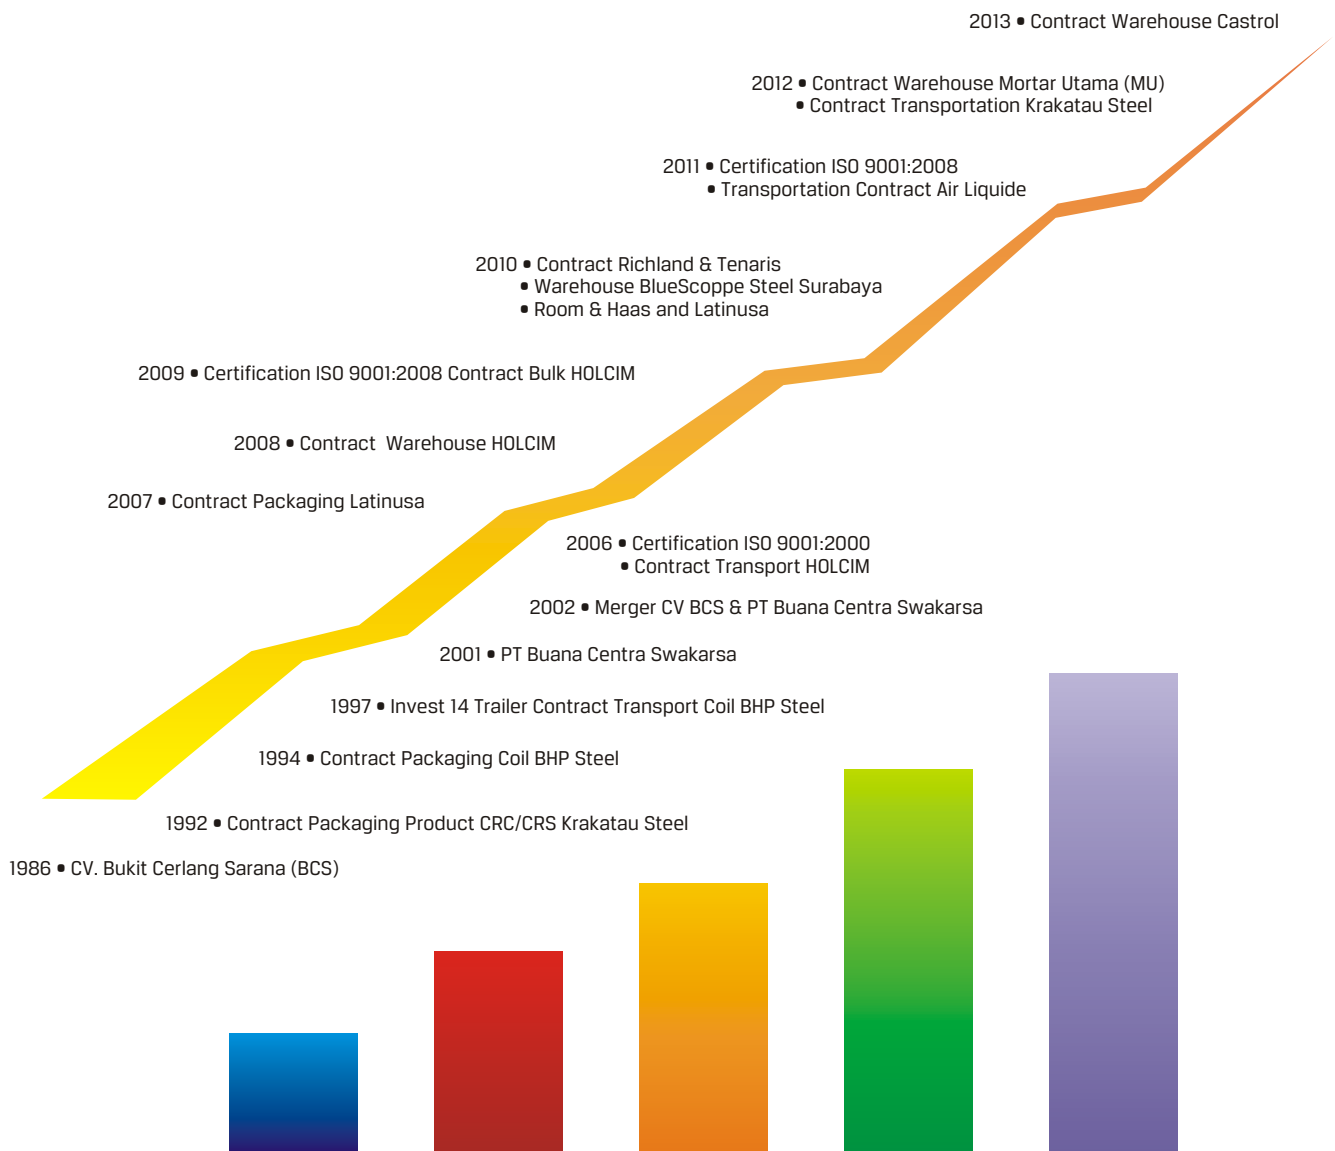

Respect towards the rules and regulations, upholding business ethics, carry out work procedures and governance are professional attitudes that always to be developed. Productive is the way to make every action and time usefully.

Learn and Grow

Learning culture makes every event is full of wisdom. It is courage to make every mistake as a starting point to be better. Awareness to keep learning will open every one minds not just to understand the success as the ultimate goal for the team. Every success is a step in the process to grow.

Worship and honesty

As the most perfect creature, we should keep each step in the effort to pray to the God. In an effort, honesty is the connecting cord from every trust we obtained.
