

## About PT Gajah Tunggal Tbk

Established in 1951, PT. Gajah Tunggal Tbk began its tire manufacturing by producing bicycle tires and became the largest integrated tire producer in South-East Asia. Produces and distribute high quality tires for passenger car, SUV's, commercial, off-the-road, industrial and motorcycles with brand GT Radial, Gajah Tunggal, IRC, and Zeneos. We also manufacture and distribute other rubber related products such as synthetic rubber, tire cords, inner tube, flap, o-ring and more.

Through debottlenecking and installation of additional equipment at our current production facilities, the Company's installed production capacity for passenger car radial and bias tires increased to 55,000 and 14,500 tires per day respectively. Currently, the motorcycle tire capacity runs at 90,000 pcs/day and the Company is planning to increase the capacity to 105,000 pcs/day.

Our company vision is to maintain and strength then domestic market leadership in the Indonesian tire industry and to achieve recognition as a financially sound and reputable manufacturer of quality tires in the global market and keep growing business and sales in Asia, Australia, Middle East, Africa, Europe, North and South America.

In 2014, the Company employed a total of more than 14.000 people. Approximately 90% of the employees are employed in the tires division and 10% in the Tire Cord and SBR division. Management believes that a diverse workforce is essential for continuous innovation. Aside from that, newly joined employees can provide ideas and breakthroughs that can meet future market demand.
